

NTHABELENG'S SPEECH

Never in my life have I thought that dreams do come true and that one day I will be this happy and fulfilled in my life.

I never thought there where angels in real life. You know as we usually pray we asked god to send us angels to save us from whatever tough obstacles that we go through in life, and in return you think that angels will be this tiny little person flying like on TV or person wearing white on your dreams, but instead mine my angels are real people living with me on this world. All the sponsors that made this centre to be here I say god grant you more blessings.

My good sponsors you really turned my life to be great. You turned me from nobody to somebody.

Doors were closed on my face, people calling me names, nobody wanted to do anything with me and my family only chosen few people who happen to understand our situation will help, others talking behind my back without knowing the truth about me, but still I prayed to God that you are our father you will help me in either way to get out of the hole of hunger, boredom and loneliness. Today because of you I am a concorer in my own way, the skills that I have acquired I will be able to help and support my fellow human beings who suffered like me.

I have hope and desire to do more and I am more positive about life like never before. I am a legend at this early age and I promise to carry the flag of all the sponsors very high and make you proud of me wherever you will be in the future.

I know I cannot change my past but oh my God the future looks very bright. I am encouraging you to keep on doing what you did for me and my community of Simunye to the rest of Gauteng. Letís change this province to be a better one.

Thank you very much from the bottom of my heart I pray to God that he blesses you in your work, and give you all the guidance, wisdom and more love for you to be able to love all the children and disadvantage people in the world.

Bro Eddie, mama Ratanang, I just hope the launch of this safe haven wonít take your love and my new parents away from me.
Thank you
